Service	Method	Path
automation-service	GET	/{workflowId}/versions/{version}
campaign-service	GET	/api/v1/campaignshasAnyRole('ADMIN', 'CAMPAIGN_MANAGER', 'ANALYST', 'VIEWER')

Future Work

Recommended enhancements include OpenAPI generation, Helm/Terraform packaging, enterprise identity, richer observability, CI/CD, guided deliverability setup, AI-assisted recommendations, provider scoring, and cross-module command center operations.
